EXPERIENCE:

PwC, Atlanta, GA

June 2021 - July 2021

Start Advisory Intern

- Utilized Excel, Alteryx, and Tableau to analyze 8,000+ donations of nonprofit donor data
- Collaborated with my team to develop recommendations for improved donor acquisition and retention
- Gained exposure to PwC partners and staff through networking events, social media, and shadowing opportunities
- Earned the [Human Centered Design](#) badge by taking course on how to work in an Agile way and environment

McCallie Sports Camp, Chattanooga, TN

June 2019 - July 2019

Camp Counselor

- Coached multiple teams of 8-11 campers in an array of different sports and camp activities
- Refereed and organized fair sports matches with consistent rules and regulation for campers

U.S Embassy, Abuja, Nigeria

Summer of 2017 & 2018

Education USA & General Service Office Intern

- Reviewed new applications to join Education USA and assisted in granting students acceptance into the program
- Made sure students in the program had access to resources in the library to progress their college application process
- Organized diplomatic gas receipts and updated embassy license plates and embassy property QR codes

PROJECTS:

Hack GT - GT Schedule Evaluator

October 2021 - Present

- Created a web application to evaluate the difficulty of course load based on the previous average GPA in course
- Utilizing HTML, CSS, & JavaScript I built portions of the front and back end

Front-End Web Development- <https://nifemib.github.io/Nifemi'sWorld.html>

January 2021

- Built a photography portfolio and booking website for the business OSNAP using HTML, CSS, and JavaScript

Student Innovation Competition - Promoting Equity and Access

Aug 2020 - May 2021

- Designed a pathway for Georgia Tech clubs to host events for Excel students (students with developmental and learning disabilities) enabling further success of students
- Contacted and provided resources for clubs to be prepared to host events for these students

INVOLVEMENT:

GT College of Computing (CoC)

August 2021 - Present

Peer Mentor

- Led discussions, created spaces, and answered questions for new incoming students to succeed in the CoC and at GT
- TA'd for CS1100, a class that exposes students to a broad survey of computing and important resources in the CoC

Hack GT

March 2021

Mentor

- Introduced web development (HTML/CSS) to high school students at Catalyst, an event to expose them to STEM

American Society of Civil Engineers

Aug 2019 - May 2020

Member

- My team won 1st place in the regional concrete canoe competition
- Designed a 3D-printed test boat in SolidWorks and outlined safety procedures of concrete canoe building process
